 - 5. Statement of Expenditure, DTC, Bhatinda for financial year 2014-2015 and from April-July 2015

Background

In India, the demand reduction for alcohol and drug use is the mandate of primarily two ministries of the union government, (a) Ministry of Social Justice and Empowerment (MSJE) and (b) Ministry of Health and Family Welfare – through its Drug De-Addiction Program (DDAP). While the MSJE program is implemented by NGOs, the DDAP provided a one-time grant to establish about 124 De- addiction centres (DACs) associated with various Government district hospitals and psychiatry departments of medical colleges. Some of the centres, established by the DDAP also receive recurring grants from DDAP. Evaluations of these established DACs revealed that almost one-third of them were not functional at all, one-third functioned partially and only remaining one-third functioned adequately. Clearly, there was a need to strengthen the Drug De Addiction Programme (DDAP).

Thus, in order to "Strengthen the Drug De-addiction Programme" This scheme was initiated by the DDAP, MoH&FW. The scheme involves enhancing the functioning of some of the DACs through the entities called as Drug Treatment clinics (DTCs). These DTCs would be associated with a general hospital, would have exclusive contractual staff (doctor, nurse, counsellor), and provisions of medicines required for the treatment – all supported financially under this scheme.

It was agreed that this scheme would be coordinated at the National level by NDDTC, AIIMS under the financial support of DDAP, MOH&FW. In the role of National coordinating centre, NDDTC, AIIMS would be responsible for identifying health facilities which already have an infrastructure to run the proposed drug treatment centres and will be able to provide out-patient care for all type of substance use disorders.

Activities Conducted by NDDTC

As per the Action Plan of the scheme, in the first year (2014-15), the following activities have been undertaken by NDDTC:

- As an administrative procedure, approval of Director, AIIMS was sought and was subsequently received to carry out the activities of the scheme
- A team, under the leadership of Professor S K Khandelwal (Chief, NDDTC) was constituted at NDDTC to manage the activities of the scheme:
 - o Dr. Atul Ambekar, Additional Professor, NDDTC, AIIMS (In-charge)
 - o Dr. Ravindra Rao, Assistant Professor, NDDTC, AIIMS (team- member)
 - o Dr. Alok Agarwal, Assistant Professor, NDDTC, AIIMS (team- member)
 - o Dr. Biswadip Chatterjee, Assistant Professor, NDDTC, AIIMS (team- member)
- A budget of Rs. 60 lacs was received for the financial year 2014-15.
- Institutions / hospitals which will participate in this activity in the current financial year (2014-2015) were informed of this initiative. Subsequently the heads / in-charge of these institution provided their agreements. Additionally these institutions (listed below) also underwent a 'feasibility assessment'. A total of five DTCs were envisaged to be made functional in 2014-15. They include
 - 1. Regional Institute of Medical Sciences (RIMS), Imphal;
 - 2. King Edward Memorial (KEM) hospital, Mumbai;
 - 3. Civil Hospital, Kapurthala, Punjab; and

- 4. Civil Hospital, Bathinda, Punjab.
- 5. NDDTC, AIIMS (as community clinic, Sundar Nagari, New Delhi)
- After evaluation of the feasibility self-assessment report, all the four listed institutes entered into an agreement with NDDTC to implement this scheme at their respective hospitals (details underneath). In Feb-March 2015, the funds allocated to each DTCs as per the proposal were transferred to each centre.
- All the posts of the contractual staffs for NDDTC, AIIMS as National Resource Coordination
 Centre were advertised in February. Subsequently, DTC coordinator was employed on contractual
 basis in March 2015 and the rest of the staffs were appointed in August, 2015.
- Staff members were also selected and appointed on contractual basis at all the other DTCs.
- As per the capacity building component of this scheme, a five-day event (a four-day training programme followed by one day workshop) was organized by NDDTC, AIIMS from 4th-8thMay 2015 (training report annexed). The purpose of the training was to train the newly inducted staffs of the DTCs on various aspects of substance use disorder and orient them to their own expected terms of reference, under this scheme. Ten participants, comprising of medical officers, nurses, and counsellors from all the four DTCs participated and underwent training. A meeting and workshop was also conducted under the chairmanship of Professor SK Khandelwal, Chief, NDDTC and was attended by all the team-members looking after this scheme at NDDTC, the participants of the training, and the nodal officers from the four DTCs. The primary objective of the workshop/meeting was to discuss the operational, logistics and administrative issues with regard to the functioning of the DTCs and plans for trouble-shooting (detailed report attached).

- In accordance to the plan for the second year under this scheme, two centers namely, KEM hospital, Mumbai and RIMS, Imphal have been invited to function as Regional Resource and Coordinating Centres (RRCC). Both the institutes provided their agreement to function as RRCC and conduct the activities as per the terms of reference mentioned in the approved action plan.
- As envisaged in the action plan, certain medicines (such as Buprenorphine, Buprenorphine-Naloxone combination, Naltraxone, Methadone and Disulfiram were supposed to be made available at all the DTCs for dispensing to the registered patients, free-of-cost. While some of these are being centrally procured by NDDTC and distributed to individual centres, others are being procured by the administration of the respective institutions. This process has been ongoing.

Activities conducted at the other centres

All the four DTCs have started functioning as per the mandate. The recruitment of the staff and the clinic services initiated are as below:

Name of the Centre	Nodal Officer	Staff (date of joining)	Total number of patients registered till 31st July 2015
DTC, RIMS, Imphal	Dr. R K Lenin	Medical Officer (10/04/15) Counselor (23/03/15) Nurse (01/04/15)	229
DTC, KEM, Mumbai	Dr. Shilpa Adarkar	Medical Officer (11/03/15) Counselor (09/03/15) Nurse (25/03/15)	395

Name of the Centre	Nodal Officer	Staff (date of joining)	Total number of patients registered till 31st July 2015
DTC, Kapurthala, Punjab	Dr. Sandeep Bhola	Counselor (21/10/14) Nurse (01/04/2015)	228
DTC, Bhatinda, Punjab	Dr. Satish Kumar Thapar	Counselor (1/11/2014) Nurse (1/11/2014)	_*
* Data not available	,		

Challenges

Initiation of the implementation of the scheme was full of certain challenges, which are being overcome to ensure smooth functioning. Initially, due to lack of constraint of spaceat the hospitals, there was no separate exclusive space for the DTC in the OPD for treatment of substance use disorders. Overcoming this challenge required close liaison with all the existing staffs of the department to identify and treat cases of drug and alcohol use. Another challenge faced by the clinical staffs at DTCs was the lack of involvement of family members in the treatment process. There was also procedural delay of refurbishments and local procurement of medications. Due to lack of availability of trained staffs at the current emoluments, it was difficult to run the DTCs if even a single staff went on leave. There is also lingering issue and concern for the security of the staffs due to the non-availability of security person for the DTCs.

Future Plans

a) NDDTC as National Coordinating Centre

- Actively support and guide the two new regional centres (viz. KEMH, Mumbai and RIMS, Imphal)
- Actively pursue the plan of opening new DTCs in the North region (under NDDTC) as well as under other regional centres
- Continue to monitor and guide other DTCs through on-site visits as well as through training workshops
- Continue to manage the procurement and supply chain of medicines for the DTCs

b) KEM, Mumbai and RIMS, Imphal as Regional Resource and Coordinating Centres

- Actively pursue the plan for opening three DTCs in their respective regions
- Actively support the functioning of the DTCs and manage the procurement and supply of medicines to DTCs
- Plan training workshop for newly appointed staff and refresher courses for staff already engaged in the DTCs
- Along with NDDTC, AIIMS, carry out monitoring and evaluation activities of the DTCs.
